

**Offline Series**  
by BEST  
V Series - Data on Lock  
G Series - Data on Card (residence hall applications)

## Heavy-duty, stand-alone access control.

BEST's Offline Series delivers robust, efficient, integrated access control. The self-contained cylindrical, mortise, or exit trim locks are battery powered and can be virtually reconfigured, with access and time parameters set at the lock for higher security. Offline Series locks work with Lenel OnGuard and Keyscan Aurora software systems, giving users with existing software more options for upgrade and retrofit applications as well as offering a choice for new users.

Designed with powerful hardware for up to 5,000 users and/or events, the Offline Series offers maximum security and flexibility.

Smart access means BEST in class

# Convenient, efficient access control.

Save time and resources with BEST's Offline Series—a self-contained access control solution that makes installation, maintenance, and management faster and easier. With the Offline Series, you won't need wire runs or complex setups. Designed for quick setup and reconfiguring, equipped with easily replaceable component parts for longer product life, and able to dynamically integrate information with existing databases, the Offline Series makes robust access control simple.

Offline Series Specifications				
<b>Certifications</b>	ANSI/BHMA A156.2 Grade 1 cylindrical lock ANSI/BHMA A156.5 Grade 1 cylinder and input devices ANSI/BHMA A156.3 Grade 1 panic hardware ANSI/BHMA A156.13 Grade 1 mortise lock ANSI/BHMA A156.25 compliant with proximity and magstripe readers UL 10C listed for electrically controlled single point locks and latches for use on 3-hour A-label doors US FCC Part 15 Class A and Canadian IC EMC listed Florida Building Code Windstorm listed ANSI/ICC A117.1 Accessible and Usable Building and ADA Operable parts shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist.			
<b>9KG/9KBV Specifications</b>	Internal materials: Brass, zinc, corrosion-treated steel Chassis: 2 1/16" diameter, fits 2 1/8" diameter hole in door Strike: Brass, bronze or stainless steel; standard 2 3/4" x 1 1/8" x 3/32" or ANSI 4 7/8" x 1 1/4" x 3/32" Backset: 2 3/4" standard, 3 3/4" and 5" available Door thickness: 1 3/4" – 2 1/4" Installation: Modified door prep required—ANSI A156.2 Series 4000, Grade 1 Latchbolt: 9/16" (3/4" throw optional) Escutcheon: 10 1/2" x 3 3/8" x 1" sloping to 3/4" Lever handle: High-quality zinc alloy			
<b>40HG/40HBV Specifications</b>	Case: 0.095" cold rolled steel, plated with zinc dichromate for corrosion protection; 5 7/8" x 7 7/8" x 4 1/16" Faceplate: Brass or bronze, automatically adjusts to proper bevel at installation; 8" x 1 1/4" x 1/16" Strike: Brass, bronze, or stainless steel; universal non-handed strike supplied standard; fits standard door prep; 4 7/8" x 1 1/4" x 3/32" Backset: 2 3/4" Door thickness: Standard 1 3/4"; available up to 3" thick (specify when ordering) Latchbolt: Solid stainless steel; 3/4" anti-friction throw; reversible without opening case Deadbolt: Stainless steel, 1" throw Auxiliary bolt: Stainless steel, non-handed Lever handle: Brass, bronze, or stainless steel Escutcheon: 10 1/2" x 3 3/8" x 1" sloping to 3/4"			
<b>EXG/EXBV Specifications</b>	Internal materials: Brass, zinc, corrosion-treated steel Minimum stile width: Mortise and rim locking types 4 3/4" surface; concealed vertical locking rod type 3 3/4" Escutcheon: 11 5/8" x 3 3/8" x 1" Lever handle: Brass or bronze			
<b>Keying</b>	9KBV/9KG Standard: SFIC 7/6 pin Non-IC prep available for: Corbin, Medeco, Sargent, Schlage, and Yale LFIC prep available for: Corbin, Sargent, Schlage, and Yale 40HG/40HBV/EXG/EXBV Standard: Best Cylinder Housing* *Can be ordered to accept another manufacturer's core housing.			
<b>9KG/9KBV Functions</b>	Cylindrical latch with key override (DV)			
<b>40HG/40HBV Functions</b>	Deadbolt with key override (TV) Deadbolt without key override (LV) Latch with key override (DV) Latch without key override (NV)			
<b>EXG/EXBV Functions</b>	With key override (EV) Without key override (NV)
